Mr. W Wesley Emerson, President
Peak Minerals, Inc./Azomite
1775 Cedar Ridge Way
Reeds Spring, MO 65737

Dear Mr. Emerson:

We are organic growers of peaches, nectarines, cherries and apricots here in California. For years, we have been losing the battle against brown rot, a disease devastating to our crops. After using Azomite, broadcast at the rate of 5 pounds per tree, we began noticing a dramatic decrease in the brown rot. This fact alone would be enough to motivate me to continue using Azomite and to highly recommend it to any grower of stone fruit.

But the real kicker? Azomite seems to add a complexity and intensity of flavors to all the fruit we grow here at Frog Hollow Farm. Please, ship us another truck load!

Enthusiastically,

Al Courchesne

Owner/Grower, Frog Hollow Farm, LLC
